Birthday Cake Card - finished Size 4 ¼" x 5 ½"

1. Create 4 ¼" x 5 ½" light blue card.
2. Cut patterned paper 4" x 5 ¼", punch corners with decorative punch (Marvy).
3. Cut light blue panel 2" x 3-½", notch corners. Wrap single strand of Aqua Blend Sparklers around notches.
4. Construct cake by cutting two layers of pink cardstock: bottom 7/8" x 1 5/8", top 5/8" x 1". Using single strand of Pink Silky, adhere to back of layer then wrap evenly around to create stripes (12 for bottom, 7 for top). Adhere bottom layer to blue panel. Wrap White Memory Thread around bottom edge of top layer. Create 3 candles by twisting White Memory Thread together and cut to about 5/8" long. Glue candles to blue panel then glue on top cake layer.
5. Using single strand of Lemon Silky, stitch a chain stitch at the top of each candle.
6. Adhere small punched white flower to side of cake, embellish with blue metallic marker.
7. Create cake stand by cutting 2 ¼" length of Silver Memory Thread, curl ends and glue under bottom cake layer. Create legs by cutting 4 pieces of Silver Memory Thread about 1 ¼" long and shaping ends to form a scroll S. Glue to panel below cake as shown on card. Adhere cake panel to card.
