

Velvet Wine Bags

Personalize a pre-purchased wine bag to make it the perfect hostess gift at the holidays! We give you a lovely script alphabet to add custom monograms for an easy and quick embroidered treasure. DMC Pearl Cotton and Needles for embroidery can be purchased at any craft or needlework store.

Materials Needed for this Project:

- Pre-made wine bag, our sample is a velvet bag with satin lining and fold-over area
 - DMC Pearl Cotton (Size 5) in coordinating color of your choice – 1 skein is needed for stitching; additional skeins needed for matching cord.
 - DMC Chenille Needle, Size 22
1. Use tracing paper to transfer the selected letters from the chart on the following page onto the fold-over area of wine bag.
 2. Use Pearl Cotton with the Back Stitch to cover the traced lines of the Script Alphabet letters. Pearl Cotton is a non-divisible thread that is used exactly as it comes off the skein.
 3. Use same color or complementary colors of Pearl Cotton to create twisted cording to tie bag. Attach cord to back of bag with small stitches and wrap around front to tie. Beads can also be added to cording for further decoration.
